### YOUR LOSS

### BECOMES MY GAIN

A social relief that became the main distributor of misery.

CNA presented the second part of the inconsistencies identified in Banasupro, through the report called: "Bonosupro's solidarity illusion", a program in which bonds were delivered knowing that they could not be exchanged. It was

found that the number of coupons distributed nationwide was 181,279; Of these, 141,279 could not be exchanged, and of the 40,000 coupons that could be exchanged, only 10,808 were duly and legally paid to people from only seven of

the country's eighteen departments.

The failed management of these deliveries suggests mismanagement by both parties involved, with a remaining 170,471 unpaid coupons and without monetary support, playing people's hunger.
